School Luncheon Staffs to Attend State Convention

Members of the various school lunch staffs of the Ulster County Schools will be among those planning to attend the 10th annual convention of the New York State School Food Service Association, in Syracuse, October 12, 13 and 14.

Members of the Ulster County School Food Service Association will also have the honor to see Mrs. Betty Jane Barringer, director of cafeterias in the Onteora Central Schools, installed as presdent of the State Associaion. It was mainly through Mrs. Barringer's efforts that the Ulster County School Food Service Association was organized and it was the first county organzation to be affiliated with the state group in 1956.

The theme of the convention s "Ten Years of Progress." Attention will be focused on administrators viewing the school unch, purchasing food, equipand supplies, efficient operation of equipment, consumer economics and the legal aspects of the school lunch program. These topics will be stressed through both general neetings and exhibits.

The New York State School School Food Service Associator is the state organizaton for all of feeding various age groups of school children.

Survey of School

H. Elliot Kaplan, president of the State Civil Service Commission, has informed the Dutchess County Civil Service Commission that it cannot survey the civil service status of school district personnel in the county because the state had been deluged with requests for services.

Kaplan said the state commission is far behind schedule in its works. He also said there is a good chance the administration of the school districts will be transferred from the county civil service commissions to the State Education Department at the next session of the Legisla-

The Dutchess commissioners contended that the state left the classification and certification of school employes in such a mess that it would not be possible to straighten them out.

In September, the Dutchess commission asked the state to survey the county school districts because after working on the project for a year, it was unable to find a solution to the

Of course, they can relieve their boredom by doing some hard physical work. There is no reason to strike. That solves no musical problem although it may have some economic significance.

When some time ago I wrote about the strike at the Metropolitan Opera House, I received some very nasty letters, particularly from women who might have been musicians' wives. The tone of the letters was generally identical and was designed to prove that I am an ignoramus who hates musicians. Social Security Office Processes \$1,211,623, Here

As of July 1961, more than \$1,211,623 is being paid every month to the 19,896 persons who are serviced by the Kingston Office of the Social Security Administration. Of this amount, Ulster County residents are receiving \$870,252 per month. This represents payments made for all types of benefits under the program. Beneficiaries include retired and disabled workers, as well as widows, minor children, wives and parents of either retired or deceased workers.

15½ Million Benefit The national figure for the period ending July 1961 shows that there are more than 151/2 million persons receiving over a billion dollars per month in Social Security benefits.

Since 1935 when the law was first passed, social security has been expanded and benefits increased. At the present time, a maximum of \$254 per month is payable for a family group. The present maximum that any one person can receive is \$121 per month. The minimum for an individual retired worker (at age 65) or a disabled worker is \$40

The money paid out by Social Security is placed into the local economy. Research has shown that a social security check is spent for the necessities of life in the community in which a beneficiary resides. Thus, not only does the individual enjoy the benefit payment, but it is shared by the local merchant. A successful merchant, of course, helps the prosperity by providing jobs for other community

Recent legislation has made it easier for persons to receive social security checks by reduc-ing the age limit so that now men may apply at age 62. In addition, fewer years to work are required to pay a retired work-er and his family or to pay members of a deceased worker's family. Nearly a million people will be added to the rolls in the coming year because of these new

Guaranteed Right

Social security is a guaranteed right that is paid for by workers. Any person who is at least 62 years old, disabled, and families of deceased persons whose last visit to a district office was before August 1, should drop into the office nearest his home, to see wither or not the changes, which became effective changes which became effective August 1961 will make him eligible for payments.

The office is located at 61 Albany Avenue, Kingston, and is open to the public from 9 a. m. to 4:30 p. m., daily, Monday through Friday.

Fire Safety Urged For Young and Old

Elderly people and small children are among those who too often are victims of fire, the National Board of Fire Underwriters said

The highest death rate by fire is among persons 65 years of age and older, the National Board said. Children under five years of age are the second largest group of

Matches should be kept out of the reach of children. Children, should not be permitted to operate eletrical appliances except in the presence of adults, the Board said. In addition, it should be impressed upon small children and elderly people that in case of fire they should get out of the house immediately. If the house catches fire, they should be instructed to go to a neighbor's residence and phone in the alarm.

Six Safety Rules For Baby Sitters

Never leave children at home alone, the National Board of Fire Underwriters said today in a Fire Prevention Week message.

If there is no adult member of the family or neighbor available to stay with the children, a baby sitter should be employed, the Board said.

The National Board listed the following rules which should be followed when you have a baby

The parents and the sitter should know each other well. Only a sitter who has a sense of responsibility and who likes children should be employed. Use the same sitter regularly if

Give instructions orally and also

Be sure the sitter understands in the children out of the house, the sitter should notify the par-

so fine it's stamped Deluxe

PERHAPS you were one of the first to find today's PM to your liking, to serve it, and to recommend it to your friends. If so, we thank you.

We find that a rare phenomenon is taking place. PM is being talked about, accepted, and getting that priceless form of advertising that cannot be bought-favorable wordof-mouth.

Recent refinements in blending methods have made today's PM what many people now believe to be the finest blend on the market. Today it has an extra smoothness and an extra fineness of taste that warrants its "de luxe" stamp.

Most men have a sense of loyalty and custom that makes them reluctant to try a brand other than their present one. Yet more people than we had dared to imagine, have tried PM and found it to be finer than the whiskey they were buying.

At National Distillers we are able to draw upon vast whiskey stocks used in producing many of America's finest whiskies. It was our hope that if we made a finer whiskey and retained a sensible price, people would learn of this and buy more of it. They are doing so. ARE YOU MAKING THE OCTANE MISTAKE?

Important News For Every Car Owner Who Wants A Healthier Motor 5,000, 10,000, 20,000 Miles From Now!

The higher the Megatane rating the better your motor will run...and

Mobil now brings you the highest Megatane rating of any leading gasoline!

Now for the first time you can choose gasoline realistically rated to make your car run stronger, last longer, keep younger!

The Octane Mistake. Yes, Octane rating measures only 2 of the things your car needs in a gasoline . . . 2 very important qualities dealing with anti-knock. The result is that many people make the Octane Mistake . . . buy gasoline high in Octane but lacking in many of the other brilliant advances made by science. These advances can truly give you a cleaner motor, quicker starting, less stalling, more mileage and

Megatane measures total performance. Recognizing this Octane Mistake, Mobil engineers now measure and express gasoline quality in a rating system which enables you to judge not just Octane but the total performance of your gasoline.

This new rating system is called Megatane. It includes Octane, of course, but goes far beyond Octane to measure not just 2, but all 21, of the qualities that Mobil engineers believe should be found in today's ideal gasoline,*

Mobil gets highest Megatane ratings. Of course, the ideal Megatane rating of 21 has not yet been achieved by anyone...not even Mobil. But when you drive into your Mobil station, you will find new Mobil Premium that rates higher on the Megatane scale (19 out of 21) than any leading Premium. New Mobil Regular, with 16 out of 21, rates higher than any leading Regular gasoline.

At first, the difference may not be apparent to you. Your car will probably not leap like a gazelle from a standing start. But never forget this: Five, ten, twenty thousand miles from now, your motor will know the difference...in more mileage, less loss of power, less harmful deposits, easier starting, longer prime of life. For the higher the Megatane rating, the better your motor will run!

For details about the Megatane rating system, visit your Mobil dealer.

Mile after mile, your motor will know the difference when it's Mobil.

Out to lunchsaving a life

Telephone Installer Phil Clancy never did finish his lunch. He was eating it on the sea wall at Oakland Beach in Rye, New York, when he saw a three-yearold girl floundering beyond her depth in Long Island Sound. Phil dived in, clothes, shoes and all, brought the tot to shore, and expertly helped her to expel the water from her lungs. She recovered nicely.

Public service is a tradition with telephone people, both on and off the job. Through Company first-aid programs, many of them have been trained to save lives in emergencies.

So Brown did the next best thing. He curled up on the draft

A policeman came along, charged him with being drunk and hauled him off to jail.

Brown was up at 7 a.m. all right. But it took him until 4 p.m. to go before a judge and convince him that he hadn't been drunk-

The draft board said it would give Brown another chance. This time he plans to try it from home.

Ten Are Named For Rich Trot At Roosevelt

Nine colts and a filly today were named for the \$85,135 Westbury Futurity for 2-yearold trotters on Oct. 20 at Roosevelt Raceway. The race is the richest in the nation for 2-yearold trotters.

The filly is Sprite Rodney owned by Mrs. Mary Jenney of Donerail, Ky., who will be handled by Frank Ervin. Sprite Rodney has had twenty-three starts this year, winning eleven times, finishing second nine times and third once. She has a top clocking of 2:03 3/5 on a mile track and 2:07 2/5 on a half-mile strip.

The nine colts and their trainers are A. C.'s Viking, Sanders Russell; Apex Hanover and Lullwater Frost, Del Miller; Gallant Hanover, Lou Huber; Isaac, John Simpson; Maneuver and Nathaniel, Harry Pownall; Oh You Kid, Alan Myer, and Paris Dean,

The strike may be the big one but a good spare ball is equal

Pins will be left standing of casionally even when the firs ball is right in the pocket. If you have no strikes, but make all the spares, your game will be some where around the 170s. Mix in a few strikes - and you've got it

As a general rule, start your approach more from the right if the spare is to your left, more from the left side if the pins are standing up on your right sideexcept when facing a cluster of pins in the strike ball position such as the 1-3-5. The feet

with search warrants Tuesday raid. cooted 12 of them out of adjacent Brooklyn apartments that were connected in military fashion by an inter-communications system and contained a shotgun, two rifles and a carbine-all loaded. Joseph (Crazy Joe) Gallo, head of the mob, was grabbed in a Greenwich Village apartment that

police described as his Manhattan hideout. All were held in \$25,000 bail each as material witnesses in the murder last week of Gallo strongman Joseph Magnesco and the at tempted garroting of Larry Gallo,

a brother of Joseph. Larry was taken as he slept in an apartment above gang headquarers, which is the Direct Vending Co. at 51 President St. in Brook-Eleven henchmen were taken with him or in the adjacent flat at 49 President St.

The Brooklyn rooms were in a disarray of unmade cots, cups and saucers, brimming ashtrays and

overflowing garbage bags. "It seems quite clear that they are herding together for safety in ear of execution by a rival mob. said Dist. Atty. Edward S. Silver Authorities believe the Gallos have gotten themselves into hot water as a band of newcomers struggling to take over the juke box and other Brooklyn rackets from entrenched mobs.

The roundup Tuesday was the second in two months as police sought to head off what they fear could erupt into a gang war rem-iniscent of the Al Capone days.
